

## Index to Vol. XXXI.

## SUBJECTS.

|   |   |
|---|---|
| Absorbents                                  | 272, 402  |
| Adulteration of honey                       | 17, 80, 85, 114, 176, 184, 263, 305, 390, 399, 402, 408, 525, 617 |
| Advice to bee-keepers                       | 86  |
| After swarms—preventing of                  | 489, 648, 649, 713, 727   |
| Age of queen when beginning to lay          | 565   |
| Age when virgin queens mate                 | 758   |
| Albino bees                                 | 107   |
| Alcoholized wax                             | 268   |
| Alfalfa                                     | 408, 437  |
| Alley wants war                             | 108   |
| Alsike clover for honey                     | 120, 183, 396, 466, 744   |
| Analyses of honey                           | 175   |
| Ants and bees                               | 656   |
| Ants in the apiary                          | 791   |
| Apiary for April                            | 456   |
| Apiary of F. A. Gemill                      | 391   |
| Apicultural journalism                      | 616   |
| "Apicultural literarians"                   | 181   |
| Apicultural outlook                         | 15  |
| Apis dorsata                                | 147, 308, 554   |
| Apis Florea                                 | 147   |
| Apis Indica                                 | 147   |
| Are drones from unfecundated queens virile? | 349   |
| Attic or bees of Hymettus                   | 146   |
| Bad mess                                    | 167   |
| Bait sections                               | 754   |
| Balling the queen                           | 809   |
| Barrels for extracted honey                 | 778   |
| Basswood for bees and its treatment         | 338   |
| Bee-diarrhea and its treatment              | 395, 439, 489, 503, 531, 604                                      |
| Bee-escapes                                 | 49, 336, 519  |
| Bee-feeders                                 | 399, 429  |
| "Bee Journal" at the head                   | 392   |
| Bee-keepers' congress in 1893               | 81  |
| "Bee-keepers' Review"                       | 285   |

## Honey & Beeswax Market Quotations.

The following Quotations are for Saturday,  
 June 24th. 1893:

CHICAGO, ILL.—There is not much move-  
 ment in comb honey. Prices range at from  
 12@16 and 17c., all good grades bringing 15@  
 17c. A few cases of the new crop have ar-  
 rived and brought the top prices. Beeswax is  
 very steady at about 25c. Extracted honey is  
 moving very slowly at from 6@8c.

R. A. B. & Co.

KANSAS CITY, Mo.—Receipts and stocks  
 very light, demand good. We quote: No. 1  
 white 1-lbs. 16@17c.; No. 2, 14@15c.; No. 1  
 amber 1-lbs. 15c.; No. 2 amber, 10@12c. Ex-  
 tracted, white, 7@7½c.; amber, 5@6.  
 Beeswax—20@23c.

C-M. C. C.

CINCINNATI, O.—New extracted has com-  
 menced to arrive lively, and is in fair demand  
 at 5@8c. There is a slow demand for comb-  
 honey, and no choice on our market; prices  
 nominal.

Beeswax—Demand good, at 22@25c for good  
 to choice yellow. Supply good. C. F. M. & S.

NEW YORK, N. Y.—New crop of extracted  
 is arriving freely. Market is quiet and de-  
 mand limited. Fancy grades sell at from 7@  
 8c.; common to fair, at from 6@70c., as to  
 body, color and flavor. Beeswax, 26@27c.

H. B. & S.

SAN FRANCISCO, CALIF.—Choice extracted  
 is scarce at 7@7½c., and demand heavier than  
 supply. Choice comb is not scarce at 10@12c.,  
 according to quality, 1-lbs. Beeswax is ne-  
 glected at 22@23c.

S. L. & S.

KANSAS CITY, Mo.—Demand good, supply  
 very light. White 1-lbs., 16c. Extracted, 8@  
 7c. No beeswax on the market. H. & B.

BOSTON, MASS.—Honey is selling slow and  
 prices are lower. Best 1-lb. comb, 16@17c.—  
 Extracted, 8@10c.

Beeswax—None on hand.

B. & R.

ALBANY, N. Y.—Our honey market is dull  
 at present. There are some receipts of new  
 extracted, but no reliable price established  
 yet. Beeswax is more plenty, at 27@28c. for  
 good color. H. R. W.

MINNEAPOLIS, MINN.—There is quite an  
 active demand this week for honey, especially  
 white comb honey in 1-lb. sections. Dark is  
 very slow sale. Stock on hand in this market  
 is very light. Receipts have not been enough  
 to supply trade during the past 10 days. Fan-  
 cy white comb honey, 18@20c.; No. 1 white,  
 17c.; fancy amber, 16c.; No. 1 amber, 14c.;  
 fancy dark, 12c.; No. 1 dark, 10c. Extracted  
 California 60-lb. kegs, 9c. Beeswax, unsal-  
 able. J. A. S. & Co.

**Capons and Caponizing**, by  
 Edward Warren Sawyer, M. D., Fanny  
 Field, and others. It shows in clear  
 language and illustrations all about  
 caponizing fowls; and thus how to  
 make the most money in poultry-raising.  
 Every poultry-keeper should have it.  
 Price, postpaid, 30 cents; or clubbed  
 with BEE JOURNAL one year, for \$1.10.

**Samantha at Saratoga** is one of  
 the best books ever written. See page 773  
 of last number of the BEE JOURNAL. We  
 offer it free to those sending us three new  
 subscribers, and also give to each of the  
 three subscribers a free copy of the pre-  
 mium edition of "Bees and Honey." This  
 is a most liberal offer, and should be taken  
 advantage of now. It expires Aug. 1st.

**Amerikanische Bienenzucht** is the  
 name of a bee-book printed in the Ger-  
 man language, which we now have for  
 sale. It is a hand-book on bee-keeping,  
 giving the methods in use by the best  
 American and German apiarists. Illus-  
 trated; 138 pages; price, postpaid,  
 \$1.00. It is just the book for our Ger-  
 man bee-keepers. We club it with the  
 BEE JOURNAL for one year, for \$1.75.
